

Soljah Skate After School Program
Spring Session 2010
Skateboard Culture

In this program you will learn the basics of skateboarding to get you started. We will start off by educating you on safety, etiquette, and the history of Skateboarding along with learning the parts that make up the skateboard and how to put it together. Once the kids are informed and comfortable, I will be taking them for walks/skate around the block as long as they have all their safety gear and permission from their parents

The Kids will also watch skate videos which will help them learn stances, tricks, and moves that can make them more confident when they skate. In addition, the kids will critique some of our local Skate parks and discuss which park is best suited for kids their age and put together a Local Skate Park Guide so they know where to go when they want to skate.

Skateboard Culture will be taught by Sherry Akioka who is also a Chabot Parent. Sherry has always been a "Soul Skater" at heart and loves to watch her kids skateboard. She has grown up in the Skateboarding Community and now raises her 3 kids with her husband within a community they love and support.

Wednesday's 2-3pm (No Class on 4/7)

There is a maximum of 15 students. Open to Girls and Boys.

Room-P13

Open to 2nd to 5th graders

First Come, First Serve Basis

1 Scholarship Available

\$150 class fee (Does not include a complete Skateboard)

This class will spend most of the program learning in a classroom about skateboarding culture. The program is not set up to give lessons on school grounds. Students will not need to bring a skateboard to school
